

The Luxmanor Greensheet

Growing a sense of community

Winter 2015

Letter from the Greensheet Editor: Carin Cooper

The Greensheet Committee and I are excited to share with the Luxmanor community the newly revamped Luxmanor Greensheet.

Since we have other modes of communication for the most timely reporting and time-sensitive updating re: committees and events, the Greensheet serves the valuable community function of keeping the neighbors apprised of the general status of big issues facing our Luxmanor community. The Greensheet Newsletter will include relevant reports from committees and coverage will be general. Since the Luxline, a monthly e-zine, was recently launched, it will offer the most recent announcements and detailed updates of meetings and developments in the community.

The Greensheet provides the important function of building community. We hope to include some new features in each edition for your enjoyment. Each edition of the Greensheet will include a "Neighbors in Our Spotlight" column highlighting a Luxmanor resident of interest. This edition includes an article resulting from an interview I did with Dr. Steve and Marilyn Ebbin, residents of Luxmanor for almost 50 years who will soon move from our neighborhood. The Greensheet will also include a Compassion in Our Community column which showcases individuals from Luxmanor who engage with the larger community in charitable and inspiring ways. We will continue to announce special awards, accomplishments, life events and milestones.

I ask for your continued support of the Greensheet by sending all submission ideas and information to our new email address:

lcagreensheet2016@gmail.com.

I join the Greensheet committee in welcoming all suggestions and input for future Greensheet articles. Lastly, I thank my Greensheet Committee for their on-going contributions and work on the many facets of this publication.

I hope by reading this Greensheet, you, the readers, will feel more connected to this community by understanding the important issues facing Luxmanor and by becoming familiar with our neighbors by the interesting stories we share of our lives with each other.

I wish you a joyful Holiday Season. May you enjoy treasured times with your family and friends.

With Gratitude,
Carin Y. Holstein Cooper
Editor, Greensheet

Welcome to the Luxmanor Community

Over the last year many new families have moved into the neighborhood. While we would like to welcome every new family, the LCA is not always aware of moves that occur. Please let us know of any new neighbors so that we can welcome them!

President's Message

Dear Neighbors,

It is an honor to have the opportunity to serve the LCA as your president. I am grateful to the past presidents and board members who have worked so hard and devoted personal time and resources to our association. In addition, I would like to express my gratitude to our association's current board members. Our current board is a group with exceptional aptitude and a devoted sense of community service. I am indebted to them for their willingness to serve our incredible community.

Our neighborhood is currently confronting a series of challenges stemming from the ongoing development surrounding our community. From White Flint I & II, to the Rock Spring Master Plan, future development around Luxmanor will have long-term impacts on our roads, traffic, the environment, utilities and our schools.

The new collocated Tilden/Rock Terrace School is scheduled to be built on the old Tilden Middle School site located at Tilden Lane and Marcliff Road. Members of the LCA Board and I attended multiple Planning Board community meetings and we will continue to do so. We continue to testify before the Montgomery County Board of Education on the impact these school builds will have on our community. I encourage our Luxmanor neighbors to fully participate in the ongoing public meeting process to ensure that our community's voice is heard on this matter. Notification of the Planning Board and Board of Education meetings are posted on the LCA Listserv and on our website.

On a different front, I am excited to share with you the news of the launch of our very own online community magazine called the LuxLine. By the time you read this Greensheet, you will have received two editions of the LuxLine in your inbox. If you are not a member of the LCA and/or you have not received your LuxLine subscription, please contact Lisbeth Herer at listserv@luxmanor.org. She will assist you. The LuxLine will be distributed monthly to your inbox. The magazine contains in-depth articles written by LCA Board Committee Chairs and others about issues of concern to our neighborhood. In addition, the LuxLine will provide an opportunity for both neighbors and local businesses to advertise within our community. All advertisement proceeds will go directly to the LCA.

Wishing all of our neighbors a happy, healthy and prosperous holiday season,

Abbe Milstein, President

Reports from our Committees

Co-location Committee Rebecca Rudich, Chair

In May, the Board of Education voted unanimously to build the Rock Terrace School and Tilden Middle School at the corner of Tilden Lane and Marcliff Road. The plans are for a middle school of 1250 6-8th graders and a separate special needs school for 100 eleven to twenty-one year olds, with a combined staff of over 200. The buildings should be ready by the 2020 school year. The two schools will be separated by a wall.

The "feasibility" study for this project has begun. As mentioned in the early feasibility study public meetings, MCPS has never found a new school project to not be feasible. The feasibility study is the neighborhood's chance to have input into the configuration of the school, including parking, bus loop and driveway configuration. Information from the feasibility study, including proposed layouts for the buildings, fields and property can be found at:
<http://www.montgomeryschoolsmd.org/departments/facilities/construction/project/tildenrockterrace.aspx>

Common features of the proposed layouts are parking and drop off loops for Tilden Middle School where the "front lawn" of the existing building is along Tilden, bus parking and loops for both schools along Marcliff Road, the Rock Terrace School building and parking on the southern end of the property where the current open field is located,

Let there be peace on Earth, and may it begin with me.

basketball courts where the existing basketball/tennis courts are, and fenced tennis courts downhill from the existing basketball courts on the portion of the existing field to the west of where the Rock Terrace School will be located. Tilden Middle School will be three stories and Rock Terrace will be two stories.

If you are interested in attending, the remaining public meetings of the feasibility study will be held on the following dates at the Tilden Center on Tilden Lane:

Work Session #5:

December 17, 2015 at 7:00pm

Work Session #6:

January 6, 2016 at 7:00pm

Planning and Zoning

Christopher Koegel, Chair

The County Planning Department is looking to “Re-Imagine” neighboring areas. The County already has a sector plan for White Flint (2010) and Twinbrook (2009), and is working on a plan for White Flint Sector II. Plans like these can have profound effects on traffic, schools, and community character.

On September 1st, the County held a “Kick Off Meeting” at WJ to make an initial presentation and begin getting the community’s input on the new Rock Spring Master Plan. Right now, that area is dominated by suburban office parks. The Rock Spring area has the County’s 4th highest office vacancy rate, with some buildings nearly 100% empty. The County attributes this vacancy to trends toward areas with more of a mixed-use, residential-plus-commercial feel, where employees can enjoy upscale food and entertainment within walking distance. Rock Spring does not currently offer that environment.

The LCA also encourages residents to let *us* know how you feel

about this undertaking. The LCA Board will be monitoring these projects very closely and reporting on developments to the community.

School Committee

Nancy Delasos, Chair

The Montgomery County Police Department (MCPD) has begun a pilot program in which some of its officers are wearing body cameras.

These cameras are turned on when officers are responding to an incident. Beginning October 12, these body cameras will be used by police

when they are responding to incidents in our schools. Please visit the MCPS website and read a message from Interim Superintendent Larry Bowers and Montgomery County Police Chief J. Thomas Manger to learn more about this program.

Roads and Traffic Committee

Jonathan Simon, Chair

Never rake your leaves onto the roadway - it's a fire hazard! Dry leaves are like dry paper, fire officials say, and can IGNITE when cars are parked over them. Parts of a vehicle's undercarriage can reach up to 600 degrees - even if driven for a short time - and are easily hot enough to start a

fire if dry leaves are touching the bottom of a car. Please remember to leave your leaf piles on the edge of your grass - near the curb, but NOT on, over it, or onto the roadway.

Traffic Updates

1) Speed cameras could be in the future for Tilden Lane which has now been added to the county's list of

potential streets being evaluated for the installation of these traffic-control devices.

2) Stop Sign violations in the neighborhood may soon be met with greater enforcement by MCPD. Please come to a complete stop to avoid a ticket in the future.

3) If you live on Marcliff Road between Tuckerman and Cushman, now is the time to voice your opinion about whether LCA should push for **new sidewalks** in conjunction with the new Tilden Co-Location. New sidewalks and bicycle lanes are "on the horizon" for Tuckerman Lane - with some elements of the project beginning within the next several years (short term plans) and some contingent on long term funding. (5-10 years).

4) Feasibility studies and architectural plans for the **Co-location of Tilden Middle School** and the **Rock Terrace School** are now underway - including bus and potential car traffic patterns entering and exiting from Tilden Lane and/or Marcliff Road.

Public Safety Committee

Sheri Steisel Weiss, Chair

Theft from Auto

The number one crime in our neighborhood! Our community liaison, Montgomery County Police Officer Oliver Janney, cautioned the LCA during our fall meeting that the entire Bethesda district has experienced a rash of thefts from cars. Criminals are aware that many of us leave our car doors unlocked and our valuables in plain sight. Thieves travel in groups and check cars in driveways and parked on the street to see which ones are unlocked. They check to see if the doors are unlocked and then steal purses, computers and backpacks and other valuables. Recently, the police had a covert team

that located two suspects. They were arrested and property was recovered from victims on both the Montgomery County and DC sides of the line.

To avoid becoming the next target -- Lock your car doors!! And make sure valuables are hidden.

Reporting Crime or Suspicious Behavior is Critical

Do not be afraid or embarrassed to report that you are a crime victim. Too often, our residents are adverse to calling the police. Please call even if you have a suspicion that something is wrong. The police encourage you to call if you witness a crime, to complain about speeding or traffic violations or to report suspicious persons in the neighborhood. It doesn't matter if your car was unlocked, it is important to report a theft from a car. Call 911 in an emergency or call the police non-emergency number 301-279-8000. It adds to the police record and assists us in getting more enforcement in our neighborhood.

Speeding Continues to be a Problem

Whether in Luxmanor, or Windermere, or The Oaks, there are intersections where cars do not stop for stop signs or maintain neighborhood speeds. This is dangerous for children walking to school, dog walkers, joggers and other drivers. Members of the LCA thanked Officer Janney for his response to our concerns about speeding and traffic violations. LCA made a formal request for traffic safety enforcement timed to back to school and citizen complaints. Neighbors raised concerns about Marcliff/Cushman, Danville/Cushman, Tilden up to Old Georgetown, Lux Lane/Rosemont in the Oaks, and Tuckerman alongside Windermere. Before the LCA's formal request for enforcement, our neighborhood was not a high priority

for enforcement. There were few complaint calls so our intersections were not highlighted by the police. Increased phone calls after listserv postings reminding neighbors to call and the LCA's formal request raised our profile and brought in more enforcement.

Members of our community have praised the increased police presence on our streets. We asked for the selected enforcement to continue and raised concerns about additional intersections. Officer Janney has been at some of the early morning enforcement in his own squad car and has described how he has personally pulled over drivers and written tickets. Some of the tickets have high fines and could add points to your record. Members mentioned how they had seen squad cars near the stop sign on Cushman and Marcliff, near the Green Acres school at Danville Drive and Cushman and closer to Luxmanor Elementary School on Tilden Drive.

Police Crackdown on Cell Phone Usage by Drivers

Police Commissioner David Falcinelli recently wrote that there is no reason for someone to be driving down the road with a phone in their hand. Distracted driving is the leading cause of crashes and has led to several fatal car accidents in our area. Maryland is a Hands-Free state. If your vehicle is moving, your phone cannot be in the driver's hand. You are not allowed to create/read/send text messages or surf the net ***anytime your vehicle is on the road.*** Please especially share this message with young drivers in your household.

Don't Pass -- Or Risk a Fine!!

Police are also conducting enforcement of drivers passing stopped school buses. A citation for passing a stopped school bus is \$570!! If painted lines are the only thing

keeping you and the school bus separated on the road, then traffic on both sides of the road must stop when the flashing red lights are activated. If there is some type of physical barrier, such as a raised median with a curb, then traffic on the roadway opposite of the bus does not need to stop.

Free Security Checkups

One little known service of the Montgomery County Community Services department is complimentary home security checkups. The police will come to your home and spend an hour doing a security overview of your home both inside and outside. They identify vulnerabilities in and around your home. These checkups can be scheduled every weekday from 9am to 3pm daily. To schedule a home security review, contact Officer Janney at oliver.janney@montgomerycountymd.gov

Other Public Safety Activities

One of the advantages of LCA membership is that you receive regular criminal activity updates and warnings from the public safety committee by email through the LCA listserv. We post quarterly analysis of criminal activities in our district.

Any reporting of a crime or suspicious behavior to the police must be done by the person who witnesses it.

Condolences

The LCA would like to extend our deepest condolences to the Levin Family on the passing of Dr. Edgar Levin on November 22nd. Dr. and Mrs. Levin resided on West Hill Drive for many years.

May his memory be for a blessing.

“Compassion in the Community”

Flashes of Hope

For the past several years, Karen Post has been the volunteer Chapter Director of the DC chapter of Flashes of Hope. Flashes of Hope is a non-profit organization that provides free professional portraits of children battling cancer. Working with volunteer professional photographers, the DC chapter photographs children and their families at Children’s Hospital, Georgetown University Hospital and the National Institutes of Health. Monumental Sports & Entertainment sponsors the DC chapter and, as a result, they offer several exciting events throughout the year with Capitals, Wizards and Mystics players for the families of children with cancer. In October, the Capitals arranged an incredible auction of signed memorabilia in connection with its Hockey Fights Cancer Night, with half of the proceeds donated to Flashes of Hope. In addition to providing photographs, Flashes of Hope raises money for pediatric cancer research. Shockingly, only 4% of cancer research funding goes to research for pediatric cancers. Flashes of Hope intends to photograph all children with cancer until there is a cure. For more information or to donate, visit www.flashesofhope.org/chapters/washington-dc or email Karen Post at karenpost@verizon.net

Newly Certified Canine Therapy Team

Soon after Labor Day, Carin Cooper and her Golden Retriever dog, Jasper of Windermere began attending weekly training sessions in Columbia, Maryland sponsored by the organization, National Capitol Therapy Dogs, Inc. (NCTD). Jasper

is the Cooper Family’s four year old pet. Carin and Jasper are now trained as a team to visit various facilities such as health care facilities, i.e., hospitals, rehabilitation facilities, hospice, assisted living facilities, educational and other facilities in the community. This fall, Jasper has been spotted walking around Windermere, the Oaks, the Bethesda Trolley Trail, and Georgetown Square Shopping Center (GSSC) wearing his “Canine Therapy Dog in Training” vest and practicing skills required for certification. Jasper particularly loves working his gig at “his piazza” at GSSC especially around WJ’s lunch break so that he can meet the community and spread his good cheer. They look forward to beginning their healing journeys at The Children’s Inn at NIH, neighboring nursing homes, and schools associated with NCTD (for now). In the future, they want to expand their work to include families in Luxmanor who could benefit from a Canine Therapy Team visit.

Please say hello to Jasper as he sports his new “Canine Therapy Dog” green vest in Luxmanor.

World Race -

By Katie Jacobson

This season, I’m thankful for a lot more than I’ve acknowledged in the past. After traveling for 11 months to 11 countries in South America, Africa, and Asia, I’m thankful for the

three meals a day I’m easily able to eat, the plush mattress I get to sleep on, and the family and friends that surround me with love and support. I’m thankful for the opportunity to step out of my comfort zone, see the different lifestyles of the world, meet unique people, and do things I never imagined doing. We painted walls, hauled rocks, preached sermons, taught English classes, prayed for the sick, played with orphans, befriended prostitutes and more. Though I believe we impacted the communities we visited, I know I was even more impacted by those I met...people who had nothing, but rejoiced in giving their best meal to us. Beautiful children who were abandoned by their parents because their disability made them too difficult to care for. Precious women who worked in the sex industry of the Red Light District dreaming only of moving to a better part of the street. I grew in my faith in God and in my confidence in myself. I battled insecurities, faced fears, and started to believe in who I was created to be. I can’t change the world, but I can love one person at a time and that is what matters most.

Thank you to everyone in the community who supported me on this journey!! - Katie

Artists Showcase

Windermere resident, Carin Cooper is participating in an Artists Showcase in the area. The showcase, at Congregation B'nai Tzedek (CBT), will continue through Dec. 20th.

Carin started painting three years ago when her husband, Bruce, gave her painting classes through the Montgomery County Department of Recreation. Carin paints in acrylics. Her love of natural beauty in the world and her worldly travels are often her inspiration for creative expression. Come experience the Artists Showcase located at CBT, 10621 S. Glen Rd. Potomac, MD 20854. The event is FREE, open to the public, and partial proceeds of sales go to charity. Carin's choice of charity is to help families in need during challenging times via the Caring Committee at CBT.

Teaching Life Skills

By Rachel Manchester

Girl Scouts registered with the Girl Scout Council - National Capital Area (GSCNC) will begin selling Girl Scout cookies on December 21st. This matters to us in the Luxmanor Community because many girls in our area will be participating. Each of our local public schools has at least one troop. Many of the local private schools have troops as well. You may see the girls, starting February 19th, at area shopping centers with their troop cookie booths. They may ring your doorbell as they go door to door.

For those of you who love Girl Scout Cookies, the next three and a half months will be a great opportunity. For those who do not, please remember that selling cookies is not just about raising

funds. The process helps the girls develop five important life skills: *goal setting, decision making, money management, people skills, and business ethics.*

Girl Scouts recognizes that not everyone wants cookies. It is okay to say "No thank you." Consider asking the girls about Gifts of Caring or the Troop2Troop Program. Best of all if you want cookies, but are unsure where you can find them, check out The Girl Scout Cookie Finder App, available for Apple and Android.

Fun Girl Scout Cookie Facts

- \$2.26 of every \$4 box goes to direct services for scouts;
- \$0.69 goes to the troop.
- All Girl Scout Cookies in the US are made by only two bakeries: Little Brownie Baker and ABC Bakers.
- Thin Mints make up approximately 40% of all GS Cookie sales.

Celebrating Successes

Sheri Steisel Weiss was appointed to the Citizen's Advisory Council for the 2nd District of the MCPD. The twenty-four person council is composed of Bethesda area community members, business owners and public safety representatives and is chaired by the Commander of the 2nd District, Captain David Falcinelli.

Michele Kunitz's husband, Anthony Tuck, has just come out with a children's book *A Stone Circle*. Released by the publisher on November 15th, the book is available on Amazon...it is probably a great read for 4th – 9th graders and a good holiday gift!!!

In November, the WJ cast and crew of *Rumors* delivered a fabulous show repeatedly to extremely satisfied audiences. *Rumors*, by Neil Simon, was the fall drama. The students are already

excited and preparing to present *Sweeney Todd* as their spring musical.

Both Dr. Veronica DiFresco of Cushman Drive and Dr. Bruce S. Cooper of Windermere Circle were rated as a "top doctor" in Internal Medicine by the *Washingtonian Magazine* this year. Doctors in the Washington, D.C. area are voted for by other local doctors.

Congratulations to Carin Cooper and her dog, Jasper, for completing training and receiving certification for being a Canine Therapy Team.

The WJ Cheer Squad took second place in the County's Division II Competition. The team won the Division III Championship for the last two years, but this was their first time competing in the more competitive Division II Competition.

Shoshana Berger, daughter of Deborah and Berman Berger, received medals in 3 out of 4 events at the USA Gymnastics competition on Nov. 22nd! In addition she has qualified for the State competition in April 2016. Way to go!

Congratulations to Noah Moss, son of Lisa and Kevin Moss, for being recruited by University of Connecticut for his golf skills. He will be attending UCONN in the fall.

"Neighbors in Our Spotlight"

Golden Years in Luxmanor

By Carin Y. H. Cooper

"Luxmanor has been our home for almost 50 years. We love this Luxmanor Community...it has been our special place to grow, flourish, and feel connected to our neighbors."

On December 9, 2015, Dr. Steve and Marilyn Ebbin will move to Santa Barbara, California, beginning a

new life closer to their family. They were approaching their 50th anniversary on Marcliff Road. Prior to living here, Steve and Marilyn moved nineteen times in eleven years to various international countries due to his career. Steve offers, "Back in 1966, twenty-two homes were built and all the families moved in within 2-3 weeks. We were all first time homeowners, and all of us developed special friendships together. We bought ladders, shovels, and other homeowner tools and equipment and shared them among neighbors. We raised our two boys, Mark and Luke here. Luxmanor E.S. opened that year, and our eldest son entered kindergarten that fall." Their son recently told them, "Thank you Mom and Dad for raising me in a village."

As Steve and Marilyn retell the story of almost 50 years here in Luxmanor, they each energetically offer many colorful details of their life on Marcliff Road that included summers at Tilden Woods Pool with swim team filled activities and social life all in one package, actively engaged women at home planning the next neighborhood gathering, and of course, the ever available neighborhood services of lawn mowing, shoveling, raking leaves, and paper delivery by Luxmanor kids. Steve's career involved traveling for a few weeks at a time, and when he returned to Marcliff Road, he exclaimed, "This home put it's arms around me and welcomed me home...I love our house."

Marilyn shares that Steve was often called the "Mayor of Marcliff" by their neighbors throughout their almost five decades here in Luxmanor. "I suppose he will be the Mayor of Wherever We Are." When asked what they hope to bring forward from Luxmanor to their next chapter, both Marilyn and Steve agree wholeheartedly, "a strong sense of

community connection." True to form, it's no surprise that they recently hosted a gathering of 39 neighbors as a welcoming party to the couple who bought their home recently.

Steve started a "Same Boat Club" for colleagues also recently retired. The programs and activities provided a sense of vitality and invigoration to retirement for the past eighteen years. Similarly, Marilyn founded a Salon for thirty women who gathered monthly for fifteen years to attend fascinating programs around the Washington, D.C. area.

At a recent farewell party of dozens, they spoke of the "incredible friendships" they found here over the years. No doubt, with their commitment to civic engagement as well as having dynamic personalities, Steve and Marilyn will CREATE community wherever they go.

We love you dearly here in Luxmanor, Steve and Marilyn. Go in good health! Be well and THRIVE!!!

LuxLine is Launched

The LCA Board announced the launch of a brand new e-magazine for our community, LuxLine. It will be the latest venue to share community information about schools, development, safety, traffic, environment, community events, and much more.

LuxLine began arriving in our email inboxes on November 16th. The Board plans for it to arrive monthly and provide timely information affecting the LCA. This resource is a way for our community to be engaged in what is happening within Luxmanor, Windermere, and the Oaks, and will provide an exciting

opportunity for community residents and outside businesses to advertise.

Neighbors and businesses can go to our website, www.luxmanor.org, to submit ads. All revenue goes directly back to our community. There are two kinds of ads available to the LCA community:

LuxLine Banner Ads

Retail costs for Banner ads will be \$150/month for a minimum of 6 months; Luxmanor, Windermere, and the Oaks residents will receive a *significant discount* of \$100/month for a minimum of 6 months. Ad content will remain the same for 6 months.

LuxLine Mini-Ads

Mini-Ads are offered at \$5.00 for 10 words for 6 months, and \$10.00 for 20 words for 6 months. Only Luxmanor, Windermere, and the Oaks residents can post Mini-ads.

The opportunity to purchase ads began on Sunday, November 15th. While there is a fee to purchase an ad, it is free to receive the Luxline and is available for anyone who is interested about what is occurring in our community. If you have any questions about placing an ad in a future edition of LuxLine, please contact the editor, Lis Herer at listserv@luxmanor.org.

*Seasons Greetings
and
Happy New Year
to all!*

Safe Travels!
